Welcome
Welcome to JustGrants!

**JustGrants** is the Department of Justice’s (DOJ) new web-based, streamlined grants management software.

**JustGrants** provides applicants and grantees tremendous transparency and an improved user experience throughout the entire process of grants management. JustGrants offers applicants and grantees:

- Efficient processes that allow for tracking progress and entering data directly;
- Improved data accuracy and access to that data through data validation and reporting tools;
- Organizational profiles with increased visibility for applicant and grantee organizations into all their grants and applications across DOJ;
- Enhanced availability and automation of electronic forms, reducing the need for uploading attachments and manual data entry; and
- Integration with SAM.gov and Grants.gov to maintain consistent entity information and to reduce duplicative data entry.

**JustGrants is your tool for all grants management work.**

Plus, this software is a living product that will evolve and improve over time. DOJ will continue to enhance the software’s functionality and expand benefits for all users.
This Job Aid Reference Guide will help you navigate the software as you move through JustGrants grants management functions, including:

- Feature overviews;
- Step-by-step instructions;
- Infographics;
- Glossary terms; and
- New feature summaries.

This guide is part of a larger training resource library that includes self-guided eLearning videos and infographics. All training resources are accessible on the JustGrants Training & Resources page.

**IMPORTANT**

During the initial release of JustGrants, please be aware:

- The system **does not** “auto save” your work.
- You will see a warning message after 10 minutes of inactivity (per security requirements).
- You will be automatically logged out if you are inactive for 15 minutes (per security requirements).
- **Unsaved work will not be saved** at logout.
JustGrants is brand-new system software. What you will be using is the initial release. Using this version, you will have everything you need to:

- Apply for funding;
- Accept or decline awards; and
- Manage awards.

JustGrants is a work in progress as the developers build out features and respond to user feedback. If you want to visualize this, think of JustGrants as a house you are building. You start with the basics: walls; roof; and a door. The building is livable.

Every so often, you add new features like an extra bathroom, a front porch, or a deck. After all major elements are in place, you can continue to personalize and modify to make it ideal. JustGrants is built similarly—access now with finishing touches as we go along using it.

Despite this continued development, the initial release of JustGrants is already a better experience than the previous software. JustGrants was developed specifically to improve upon the existing system software.

All aspects of grant management have been integrated into this new, single system, allowing you to enter information into an application, access it, accept your grant package, manage your funded award, and complete your Closeout activities.
Closeout
Here we are at the end of the grant process: Closeout. In order to complete a closeout, you must submit the final financial, performance, and other reports required under the grant within 90 days after the grant award expires or is terminated.

DOJ will review the materials to ensure compliance with the grant terms and conditions and to ensure you spent all the funds appropriately. The process can take several months if there are financial concerns, questions to reconcile, or any property involved.

Within JustGrants:

**Closeouts are automatically generated** one day after the grant end date or automatically if an award is declined.

**Closeouts are automatically submitted** when it is 91 days after the end date of the grant.

**Please note:**

- You will be notified when the Closeout is generated and when it is due.
- You **must submit a final SF-425** to view the financial reconciliation.
- You will **forfeit final disbursement if not requested within 90 days of the award end date**.
Features and Responsibilities

JustGrants new features help you complete your Closeout requirements with information displayed on one screen. From there, you can navigate to the application; funding recommendation; and funded award tabs, including FFRs (SF-425), Performance Reports, and GAMs. Plus, internal and external users will see similar screens.

S–U

Survey Repository
A library of questions, question pages, and question sets that make up questionnaires that are included in solicitations. The answers applicants make to the questions in these questionnaires provide the basis for performance reporting in funded awards.

UEI
Unique Entity Identifier (UEI) is a unique number assigned to all entities (public and private companies, individuals, institutions, or organizations) who register to do business with the federal government.

Urgency
The number of days until or since the due date of the case, whether it is an application, a grant package, an award, a federal financial report, a performance report, or other item in JustGrants.
SAM.Gov and Grants.Gov
What is SAM.gov? It is considered the Federal Government’s “source of truth” or “authoritative source” of information regarding entities.

Entities **must** register in SAM.gov in order to apply for funding on Grants.gov and **must** maintain active registration throughout the life of their federal award(s). Information added or updated in SAM.gov generally will appear in JustGrants the following day. Keep in mind:

1. **All Entity-level data is managed in SAM.gov.** JustGrants pulls its Entity information directly from SAM.gov to ensure consistency and integrity.

2. **Updates to Entity information occur in SAM.gov.** JustGrants performs daily automated SAM.gov checks to collect current Entity information.

3. **All Entity information is registered in SAM.gov and needs to be updated there by the Entity Administrator rather than through a grant modification.**

4. **If an Entity’s SAM.gov registration is not active or has expired, its award can be delayed/suspended until the registration is active.**
Grants.gov is a location for grant seekers to find and apply for federal funding opportunities and is home to information on more than 1,000 grant programs. The program also vets grant applications for federal grant-making agencies like DOJ.

*Grants.gov provides a central website where federal agencies can post discretionary funding opportunities that grantees can easily find and apply to.*

Grants.gov was established in 2002 and is managed by the U.S. Department of Health and Human Services. Grants.gov is an E-Government initiative operating under the governance of the Office of Management and Budget (OMB).

### Key Benefits

1. Helps the grant community learn about available opportunities.
2. Facilitates interaction with the Federal Government.
3. Simplifies grant application, saving money, time, and hassle.
4. Makes researching and finding federal grants easier.
5. Makes electronic grant application processing easier.
6. Provides a secure, reliable source to apply for federal grants.
