Grant Award Modification

Job Aid Reference Guide
Welcome
Begin with this exploration of JustGrants and the initial release of this new software

Grant Award Modification
This overview of Grant Award Modification (GAM) will get you up to speed with this guide

GAM Initiation
This section includes step-by-step directions for initiating a GAM.

Project Period Extension
This section includes step-by-step directions to extend the length of the funded award

Programmatic
This section includes step-by-step directions to update changes in project scope or for approval of changes with certain costs and activities

Financial
This section includes step-by-step directions to modify budget details or approve a budget that received a conditional clearance

Appendix
This section provides Record Type Prefixes, JustGrants Terminology, and background on SAM.Gov and Grants.gov

Table of Contents
Welcome
Welcome to JustGrants!

**JustGrants** is the Department of Justice’s (DOJ) new web-based, streamlined grants management software.

**JustGrants** provides applicants and grantees tremendous transparency and an improved user experience throughout the entire process of grants management. JustGrants offers applicants and grantees:

- Efficient processes that allow for tracking progress and entering data directly;
- Improved data accuracy and access to that data through data validation and reporting tools;
- Organizational profiles with increased visibility for applicant and grantee organizations into all their grants and applications across DOJ;
- Enhanced availability and automation of electronic forms, reducing the need for uploading attachments and manual data entry; and
- Integration with SAM.gov and Grants.gov to maintain consistent entity information and to reduce duplicative data entry.

**JustGrants is your tool for all grants management work.**

Plus, this software is a living product that will evolve and improve over time. DOJ will continue to enhance the software’s functionality and expand benefits for all users.
Overview (Continued)

This Job Aid Reference Guide will help you navigate the software as you move through JustGrants grants management functions, including:

- Feature overviews;
- Step-by-step instructions;
- Infographics;
- Glossary terms; and
- New feature summaries.

This guide is part of a larger training resource library that includes self-guided eLearning videos and infographics. All training resources are accessible on the JustGrants Training & Resources page.

IMPORTANT

During the initial release of JustGrants, please be aware:

- The system does not “auto save” your work.
- You will see a warning message after 10 minutes of inactivity (per security requirements).
- You will be automatically logged out if you are inactive for 15 minutes (per security requirements).
- Unsaved work will not be saved at logout.
JustGrants Initial Release

JustGrants is brand-new system software. What you will be using is the initial release. Using this version, you will have everything you need to:

- Apply for funding;
- Accept or decline awards; and
- Manage awards.

JustGrants is a work in progress as the developers build out features and respond to user feedback. If you want to visualize this, think of JustGrants as a house you are building. You start with the basics: walls; roof; and a door. The building is livable.

Every so often, you add new features like an extra bathroom, a front porch, or a deck. After all major elements are in place, you can continue to personalize and modify to make it ideal. JustGrants is built similarly—access now with finishing touches as we go along using it.

Despite this continued development, the initial release of JustGrants is already a better experience than the previous software. JustGrants was developed specifically to improve upon the existing system software.

All aspects of grant management have been integrated into this new, single system, allowing you to enter information into an application, access it, accept your grant package, manage your funded award, and complete your Closeout activities.
Grant Award Modification
At this point, it is possible some things about your grant have changed. This is where the Grant Award Modification (GAM) comes into play. A GAM is created to update the Award Details and is used only to modify a key fact or a detail about the award.

**JustGrants focuses on true modifications to an award.** GAMs are *not* used for more routine updates to grant information that will *not* modify a fact about the award details.

There are three types of GAMs—**Project Period Extension, Programmatic, and Financial**. GAMs are all started in the same basic way. But each has specific fields and sub-types depending on the information needed for the specific type of GAM.

Users can enter information in the GAM, save it, then return later to complete and submit. Once a GAM is submitted, DOJ reviews it and sends you a notification: **Approved, Denied, or Change Requested**.

The following actions can still be done in JustGrants, but are not being treated as GAMs:

- Within JustGrants, an Entity Administrator can change the Grant Award Administrator and Change the Authorized Representative
- Within JustGrants, grant award administrators can submit deliverables for review under “performance management.”
- On SAM.gov, grantees can update:
  - Grantee name
  - Address
  - Establish a new DUNS, which will create a new and unique entity.

Let’s take a look now at the GAM types, sub-types, and the users involved.

In addition to reviewing the DOJ Financial Guide for guidance, you should also review the award owner’s manual and other managing office requirements when working with GAMs.
Grant Award Modification Types

Project Period Extension GAM

Programmatic GAMs

Grant Manager

Programmatic Cost GAM

Scope Change GAM

Financial GAMs

Budget Reduction GAM (COPS only), Budget Modification GAM & Sole Source GAM

Budget Reduction GAM (OJP/OVW only)

Budget Clearance GAM

Financial Staff

Grantee
Key GAM Takeaways

• The only external roles authorized to initiate a GAM are the **Grant Award Administrator** or **Alternate Grant Award Administrator**. A **Grant Manager** can also initiate a GAM.

• Some GAMs are no longer needed since they do not modify a fact about the award details.

• JustGrants has rules about creating and submitting two GAMs that modify the same data in the award details. Two GAMs for the same data **cannot** be in progress at the same time.

• A user can delete a GAM before submitting it.

• Once a GAM is resolved, the award details are updated.

• The GAM tab shows all in-progress and resolved GAMs for that award, including:
  • New: created, saved, and not submitted
  • Resolved-Deleted: the creator deleted it and it was never submitted
  • Pending-Approval: submitted and in the review process
  • Pending-UFMS: the data has been sent to UFMS, waiting for confirmation
  • Resolved-Denied: submitted and was not approved
  • Resolved-Completed: GAM reached final approval
  • Pending-Change Request: it was in review and was sent back to the creator for updates
  • Resolved-Withdraw: it was sent back to the creator and the creator withdrew it instead of re-submitting

• If a GAM is Change Requested, it auto-populates in the initiators Worklist for further action.

• Approved GAMs will update the corresponding fields in the funded award detail/attachments, in addition to resolving the GAM.

• **Grant Award Administrators** and **Alternate Grant Award Administrators** receive emails for GAMs that are Approved, Denied, or Change Requested.
GAM Initiation
Step 1: GAM Initiation

Select Awards

JustGrants homepage

1) Select Awards on the JustGrants homepage.
Step 2: GAM Initiation

Select Award ID

2) Select the Award ID for the GAM you wish to initiate from the My Assigned Awards menu.
Step 3: GAM Initiation

Select Begin

3) Select the **Begin** button corresponding to the Programmatic or Funded Award line.

**Note:** If the **Begin** button does not appear, the Award may be in read-only mode. See page 18: GAM Initiation Troubleshooting for more information.
Step 4: GAM Initiation

Select GAM Tab

GAM tab appears within Award Information.

4) Select the **Grant Award Modification (GAM)** tab.
Step 5: GAM Initiation

Select GAM Type

GAM types appear in the dropdown menu.

5) Select the GAM type from the **Type of Award Change** dropdown menu.
Step 6: GAM Initiation

Award Change Subtype

6) If necessary, select the appropriate subtype from the Award Change Subtype dropdown menu.

Note: If the Create New GAM button is gray for Project Period Extension and Financial GAMs, a GAM of the same type or subtype is already in progress. A second GAM of the same type may not be created.
Step 7: GAM Initiation

Create New GAM

7) Select Create New GAM.

- To create a budget modification GAM and/or budget reduction GAM, an award must first have a final budget clearance.
- Programmatic GAMs will let you create a second GAM if one is in progress, but the data being modified by the in-progress GAM will be greyed out when the GAM is opened.
If the **Begin** button does not appear when opening an Award, the Award may be in Read-Only view and you will not be able to initiate a GAM.

Another indicator that the award is opening in Read-Only view is if the Funded Award Labels (a) appear at the top of the screen.

If the Award is opening in Read-Only view, ensure that you are logged in under the correct role, and that your entity has fully onboarded.

External users also need to have accepted the award and be logged in as the Grant Award Administrator or the Alternate Grants Administrator for the award.
Project Period Extension GAM
A Project Period Extension GAM is used to extend the length of the funded award. The most direct way to do this is to change the End Date and—in rare circumstances—change the start date.

Here are some specifics about how JustGrants handles these changes.

- If a Project Period Extension GAM is already in progress, the Create a New GAM button will be gray, indicating it is unavailable. A blue button indicates the GAM is possible.

- Enter the number of months to extend in the Project Period Extension End Date. JustGrants will make the end date the last day of the last month of the extension and auto-calculate the end date for No Cost Extension GAMs. The original start and end date are displayed for comparison.

- ONLY the DOJ Grant Manager can initiate a GAM to extend the award period within 30 days of the current Project Period End Date.

- The Start Date Change system will not update the Progress Report or FFR schedule.

- Changing the start date is extremely rare and should not happen often.

- The unobligated balance and associated dates are displayed below the Previously Approved Extensions field.

- Users can Add Attachments.

- Grants Management comments become a permanent official comment. **Once entered here, comments cannot be deleted.** This field should not be used for ongoing conversation.
Steps 1 - 2: Project Period Extension GAM

The End Date is extended by a number of months.

All steps in the Project Period Extension GAM process occur after the GAM has been initiated. For information regarding how to initiate a GAM, please refer to the GAM Initiation steps on pages 12-19 of this guide.

1) Once a Project Period Extension GAM has been created, review the Funded Award Details in the GAM header.

2) Update the Number of Months to extend Project Period Extension End Date field by typing the number of months you want the award to be extended.

The Requested Project Period displays the new start and end dates for the funded award. The end date displayed is the last day of the month corresponding to the new end date. While it is possible to update the Project Start Date, this is a very rare occurrence. To do so, type the new date in the Project Period Extension Start Date field.
Steps 3-4: Project Period Extension GAM

3) Type a justification for the project period extension in the **Justification** field.

4) Select the **Attach** button to attach files to the GAM.
Steps 5 - 6: Project Period Extension GAM

Attach Files

5) Locate the file on your workstation or shared drive or drag and drop the file as indicated.

6) Select the **Attach** button.
Steps 7 - 8: Project Period Extension GAM

Comments are visible to both internal and external users.

7) Type any comments in the **Grants Management Comments** field. These comments are visible to your Grant Manager.

8) Select the **Add** button.
Step 9: Project Period Extension GAM

The GAM is routed to the Grant Manager for review.

9) Select the **Submit** button.
Programmatic GAM
Programmatic GAM Overview

A Programmatic GAM is used to update changes in project scope or to gain prior approval for changes with programmatic costs and activities as determined by the DOJ Financial Guide.

By utilizing Programmatic GAMs, a user can initiate a second GAM even if one is in progress—unlike Project Period Extension GAMs. Keep in mind, though, items within the in-progress GAM will be disabled on screen.

Programmatic GAMs have two sub-types: Programmatic Costs and Scope.

Within Programmatic Costs, you can submit multiple GAMs for programmatic costs but can only one GAM per cost type in progress at the same time.

You can also submit multiple costs in the same GAM.

For Costs requiring Prior Approval, deliverables are not included (as that is initiated in the performance management/deliverables section of the Funded Award).

An Other field exists for the purpose of including items that are part of appropriation costs. This field should not be used to submit documentation/deliverables.
Within Programmatic Scope Change, you can select:

- Altering programmatic activities
- Changing the purpose of the project
- Changing the project site
- Staff changes that include experiencing or making changes to the organization or staff with primary responsibility for award implementation. These changes can include (choose one):
  - Changes in key personnel
  - Contracting out and/or sub-awarding
  - Otherwise obtaining the services of a third party

You can request to update the Project Title (one project title change at a time) and Project Description.

If a Scope Change is in progress for a specific reason, another one cannot be submitted for the same reason until the first Scope Change GAM is resolved

Programmatic Scope Change Best Practices

- Submit Programmatic Scope Changes as a single GAM rather than as separate GAMs.
- Work with your Grant Manager on details before submitting a complex scope change.
- You can add attachments.
- Enter information regarding the scope change into the Justification text field.
Programmatic Costs GAM
Steps 1 - 2: Programmatic Costs GAM

**GAM Type and Subtype**

Select the Programmatic GAM Type.

All steps in the Programmatic Costs GAM process occur after the GAM has been initiated. For information regarding how to initiate a GAM, please refer to the GAM Initiation steps on pages 12-19 of this guide.

1) Select the Programmatic GAM type from the **Type of Award Change** dropdown menu.

2) Select the subtype from the **Award Change Subtype** dropdown menu. In this example, we are selecting the Programmatic Costs subtype.
Step 3: Programmatic Costs GAM

Create GAM

Select Create New GAM.

3) Select Create New GAM.
Steps 4 - 6: Programmatic Costs GAM

4) Select the corresponding cost item(s) for which prior approval is being requested.

5) Type a justification for the project period extension in the Justification field.

6) Select the Attach button to attach files to the GAM.
Steps 7 - 8: Programmatic Costs GAM

7) Locate the file on your workstation or shared drive or drag and drop the file as indicated.

8) Select the **Attach** button.
Steps 9 - 10: Programmatic Costs GAM

9) Type any comments in the **Grants Management Comments** field. These comments are visible to your Grant Manager.

10) Select the **Add** button.
Step 11: Programmatic Costs GAM

11) Select the **Submit** button.
Steps 1 - 2: Scope Change GAM

GAM Type and Subtype

Select the Programmatic GAM Type.

All steps in the Scope Change GAM process occur after the GAM has been initiated. For information regarding how to initiate a GAM, please refer to the GAM Initiation steps on pages 12-19 of this guide.

1) Select **Programmatic** from the Type of Award Change dropdown menu.

2) Select **Scope Change** from the Award Change Subtype dropdown menu.
Step 3: Scope Change GAM:

Create GAM

3) Select Create New GAM.
Step 4: Scope Change GAM

Change the Scope

Select all relevant scope changes.

4) Select all options reflected in the changing scope of your project. It is best to include all scope changes in a single GAM rather than submit separate GAMs for each change.

Note: It is a best practice to discuss all changes in scope with your Grant Manager prior to submitting a Scope Change GAM to avoid a change request coming back to you if the changes are not approved.
Step 5: Scope Change GAM

Staff Changes

Include all changes in staff reflected in the scope change.

5) If there are personnel changes, select all that apply.
Step 6 - 9: Scope Change GAM

6) Type a justification for the project period extension in the Justification field.

7) Select the Project Title check box and enter an updated project title if the scope change includes changes to the project title.

8) Select the Project Description check box and enter an updated project title if the scope change includes changes to the project description.

9) Select the Attach button to add Programmatic Attachments to the GAM.
Steps 10 - 11: Scope Change GAM

10) Locate the file on your workstation or shared drive or drag and drop the file as indicated.

11) Select the Attach button.

Attach as many files as needed.
Steps 12 - 13: Scope Change GAM

12) Type any comments in the **Grants Management Comments** field. These comments are visible to your Grant Manager.

13) Select the **Add** button.
Step 14: Scope Change GAM

The GAM is routed to the Grant Manager for review.

14) Select the **Submit** button.
Financial GAMs
Financial GAM Takeaways

Financial GAMs are used to modify budget details or approve a budget that received a conditional clearance when awarded (a process performed by a DOJ Financial Analyst). There are three types:

**Budget Modification**

Budget Modifications are submitted for any of the reasons in the DOJ Financial Guide. For example, JustGrants lets you initiate a Budget Modification GAM to add program income. You will need to declare the budget categories that would use the increased income and update the `Program Income Amount` field to reflect the budget category changes. You can update each budget category and once the updated amount is entered, JustGrants will calculate the requested changes.

You can add, subtract, or edit the category totals. But the Revised Budget column can never be negative, and the Federal Award Amount cannot be edited.

`Federal Funds Amount + Match Amount + Program Income Amount` must equal `Total Project Costs`, or you cannot submit the GAM.

**Sole Source**

This option includes a justification and attachment.

**Budget Reduction**

This option is only available to COPS grantees on COPS awards. A budget reduction is used to reduce the amount of federal funds on an award. For OJP and OVW awards, if this is needed, it must be initiated by the grant manager.
Budget Modification GAM
Steps 1 - 2: Budget Modification GAM

**GAM Type and Subtype**

Select the Programmatic GAM Type.

All steps in the Budget Modification GAM process occur after the GAM has been initiated. For information regarding how to initiate a GAM, please refer to the GAM Initiation steps on pages 12-19 of this guide.

1) Select Financial from the Type of Award Change dropdown menu.

2) Select Budget Modification from the Award Change Subtype dropdown menu.
Step 3: Budget Modification GAM

Create GAM

Select Create New GAM.

3) Select Create New GAM.
Step 4: Budget Modification GAM (OJP & OVW awards only)

Enter Modified Budget

JustGrants performs the requested change calculations.

4) Enter the modified budget figures in the **Revised Budget** column. These are the new total figures by category that you are requesting. JustGrants will calculate the difference between the approved budget figures and will update the **Requested Changes** column automatically.
Step 4: Budget Modification GAM (COPS Awards only)

Enter Modified Budget

<table>
<thead>

<td></td>
<td>$170,252.00</td>
</tr>
</tbody>
</table>

JustGrants performs the requested change calculations.

4) For COPS awards, you will need to enter/modify the individual budget details by selecting the gear icon corresponding to the budget category.
Steps 5 - 6: Budget Modification GAM

5) Type a justification for the budget modification in the **Justification** field.

6) Select the **Attach** button to attach your revised budget and any supporting documents required by the awarding agency to the GAM.

**Note:** For indirect costs, the Entity Administrator needs to first upload the document in the entity library and then associate the document with this request. An **Attach Entity Doc** button will appear, which allows the Entity Administrator to upload the document.
Steps 7 - 8: Budget Modification GAM

7) Locate the file on your workstation or shared drive or drag and drop the file as indicated.

8) Select the Attach button.
Steps 9 - 10: Budget Modification GAM

9) Type any comments in the **Grants Management Comments** field. These comments are visible to your Grant Manager.

10) Select the **Add** button.
Step 11: Budget Modification GAM

Submit

The GAM is routed to the Grant Manager for review.

11) Select the Submit button.
Sole Source GAM
Steps 1 - 2: Sole Source GAM

**GAM Type and Subtype**

1) Once a Financial GAM has been created, review the Funded Award Details in the GAM header.

2) Select the GAM type from the **Type of Award Change** dropdown menu.

All steps in the Sole Source GAM process occur after the GAM has been initiated. For information regarding how to initiate a GAM, please refer to the **GAM Initiation** steps on pages 12-19 of this guide.
Step 3: Sole Source GAM

Type of Award Change

3) Select Create New GAM.
Steps 4 - 5: Sole Source GAM

4) Type a justification for the sole source approval request in the **Justification** field.

5) Select the **Upload Doc** button to attach files to the GAM.
Steps 6 - 8: Sole Source GAM

6) Locate the file on your workstation or shared drive or drag and drop the file as indicated.

7) Select an attachment category from the list.

8) Select the Attach button.

The Name and Category fields are required.
Step 9: Sole Source GAM

9) Select the **Submit** button.

The GAM is routed to the Grant Manager for review.

*Desk Review
Terminology
JustGrants Terminology

JustGrants arrival brings along some new words and phrases you will need to know.

---

A–C

Annual Programmatic Desk Review
The Annual Programmatic Desk Review (APDR) is conducted on all Funded Awards and consists of seven questions that grantees must answer. APDRs take place within the Funded Award in JustGrants.

Award Conditions
In the legacy system, this was referred to as “Special Conditions”.

Case ID
The Case ID is the unique identifier for every type of record in JustGrants. For example, the case ID for an application is the Application number. For a Funded Award, the Case ID is the Award Number. Each type of record has a Case ID.

Case Status
The status is the type of record that is displayed. The status list displayed is determined by the type of case associated with it.
Category
Documents uploaded to the Entity Documents repository are categorized as:

- Disclosure of Process Related to Executive Compensation
- Budget Financial Management Questionnaire
- Budget Indirect Cost Rate Agreement
- File
- Legacy Attachments
- Proof of 501 © Status (Nonprofit Organization Only)

Financial Manager
The Financial Manager is a grantee role responsible for submitting federal financial reports (FFRs), processing financial Grant Award Modifications (GAMs), and initiating closeout.

Funded Award
A funded award is an award that has been approved for fund disbursement to a grantee and has been accepted by that grantee.

Grant Award Administrator
A grantee role that manages many aspects of the grant. This role allows a grantee to view and submit performance reports, initiate some Grant Award Modifications (GAMs), review and respond to monitoring issues as applicable, upload documents, and view award, application, and solicitation information.
JustGrants Terminology

*JustGrants arrival brings along some new words and phrases you will need to know.*

---

**G–R**

**Grant Award Modification (GAM)**

A request for a modification to a key element to a funded award. Most GAMs can be initiated by a grantee but must be approved by DOJ personnel. GAMs can be created to extend the project period, updated the project scope, modify programmatic costs, reduce the budget amount, modify the budget, or modify the sole source.

**Program Office**

Within the Office of Justice Programs (OJP), there are several Program Offices:

- Bureau of Justice Assistance (BJA)
- Bureau of Justice Statistics (BJS)
- National Institute of Justice (NIJ)
- Office of Juvenile Justice and Delinquency Prevention (OJJDP)
- Office for Victims of Crime (OVC)
- Office of Sex Offender Sentencing, Monitoring, Apprehending, Registering, and Tracking (SMART)

**Role Names**

Roles determine the access a user is granted in the system. Users may be granted multiple roles in JustGrants, depending on the tasks they perform.
JustGrants Terminology

JustGrants arrival brings along some new words and phrases you will need to know.

S–U

Survey Repository
A library of questions, question pages, and question sets that make up questionnaires that are included in solicitations. The answers applicants make to the questions in these questionnaires provide the basis for performance reporting in funded awards.

UEI
Unique Entity Identifier (UEI) is a unique number assigned to all entities (public and private companies, individuals, institutions, or organizations) who register to do business with the federal government.

Urgency
The number of days until or since the due date of the case, whether it is an application, a grant package, an award, a federal financial report, a performance report, or other item in JustGrants.
SAM.Gov and Grants.Gov
What is SAM.gov? It is considered the Federal Government’s “source of truth” or “authoritative source” of information regarding entities.

Entities **must** register in SAM.gov in order to apply for funding on Grants.gov and **must** maintain active registration throughout the life of their federal award(s). Information added or updated in SAM.gov generally will appear in JustGrants the following day. Keep in mind:

1. **All Entity-level data is managed in SAM.gov.** JustGrants pulls its Entity information directly from SAM.gov to ensure consistency and integrity.

2. **Updates to Entity information occur in SAM.gov.** JustGrants performs daily automated SAM.gov checks to collect current Entity information.

3. **All Entity information is registered in SAM.gov and needs to be updated there by the Entity Administrator rather than through a grant modification.**

4. **If an Entity’s SAM.gov registration is not active or has expired, its award can be delayed/suspended until the registration is active.**
Grants.gov is a location for grant seekers to find and apply for federal funding opportunities and is home to information on more than 1,000 grant programs. The program also vets grant applications for federal grant-making agencies like DOJ.

*Grants.gov provides a central website where federal agencies can post discretionary funding opportunities that grantees can easily find and apply to.*

Grants.gov was established in 2002 and is managed by the U.S. Department of Health and Human Services. Grants.gov is an E-Government initiative operating under the governance of the Office of Management and Budget (OMB).

### Key Benefits

1. Helps the grant community learn about available opportunities.
2. Facilitates interaction with the Federal Government.
3. Simplifies grant application, saving money, time, and hassle.
4. Makes researching and finding federal grants easier.
5. Makes electronic grant application processing easier.
6. Provides a secure, reliable source to apply for federal grants.
